

# Questioning COVID-19?

## Did you know?

- All cause deaths in 2020 were on par with stats in previous years in Canada (and countries around the world) (*Stats Canada website*)
- The worldwide COVID-19 survival rate for 2020 is above 99.9%, including Canada, the US, and Sweden which had no lockdowns and no masks. (*Simply do the math: COVID-19 deaths divided by total population*)
- Over 90% of COVID-19 deaths occurred in nursing homes – but old people living at home were mostly spared. Is it COVID-19 or is it neglect? (*Library of Parliament, Jan. 31, 2021*)
- In Canada, the seasonal flu has miraculously disappeared (down by 98% according to Health Canada). Influenza A or B test results are being replaced by positive COVID-19 results.
- 94% of COVID-19 deaths were people with 2 or more pre-existing conditions or were elderly. They died with COVID-19, not from COVID-19.

## Tired of the lockdowns and restrictions?

### You're not alone.

Lockdowns and restrictions are harming people more than the virus -*Justice Centre for Constitutional Freedoms, Dec. 3, 2020 - [www.jccf.ca](http://www.jccf.ca)*

Government and health officials are releasing information out of context (*The PostMillennial, Dec. 30, 2020 - <https://thepostmillennial.com/alberta-top-doctor-is-misleading-public-about-covid-with-irresponsible-tweets>*)

Yukon's Civil Emergency Measures Act (CEMA) is violating your rights under the Canadian Charter of Rights (*Justice Centre for Constitutional Freedom - [www.jccf.ca](http://www.jccf.ca)*)

Overall public health is being ignored by governments, including our own. No stats on job loss, bankruptcies, mental health, substance abuse, domestic abuse, crime, and suicide have been released to Yukoners.
